If you use Deering Twine you will be a Christian during harvest.

It costs you 11 cents a pound of 500 full feet.

Cheap Sisal Twine has 375 to 400 feet in every pound.

It is lumpy—parts of the pulp remaining and breaks frequen

It is spun from 6-foot strands of sisal fiber, has more joints, is uneven and you only get about 375 feet out of a pound.

They don't guarantee it to suit you. They dare not.

If you attempt to use this chean twine you had better take a furiough or religion during harvest, for your temper will surely get the best of you. You are only human and can't patiently stant your twine constantly breaking and annoying you.

It costs you 10 cents for 400 feet.

Would you rather pay 11 cents for 500 feet, no foot of which will break, or will you pay 10 cents for 400 feet, any foot of which is apt to break? You are the doctor. It is up to you. Make your decision and make it quick. Harvest is here. 500 feet of unbreakable DEERING PURE SISAL BINDER TWINE for 11 cents at the Price Fighter's.
